Subject: draft dioxin noncancer assessment for review
Attachments: Draft Dioxin Reanalysis Volume 1 09'06'11.docx; Draft Dioxin Reanalysis Volume 1 Appendix A 09'06'11.docx

Hi all -

Thanks again for your help in reviewing this draft. There are quite a few odds-and-ends that we're still cleaning up - but rather than giving you a laundry list here - we'll discuss them on the call this afternoon. We were still revising/drafting sections of text up until just a little while ago - so we're assuming that there will be some typos and some referencing errors (especially w/regard to the Appendices) - but we'll get all those cleaned up for the next version - so no need to waste your time on those types of things.

Attached is the draft of the body of the document. I'll be sending the appendices in a separate email. We'll also be sending a separate document that has an additional piece of the uncertainty analysis - we simply couldn't finish it in time to incorporate it into this draft. We'll tell you about it on the call tomorrow and then hopefully send it out by COB Thursday (its relatively short).

Also attached is a summary of the major SAB and public comments. We had ICF draft this for us - we just received this tonight so we haven't had a chance to review it.

And, just FYI - we considered sending you redline versions of the draft sections that would highlight the changes since the last version you saw. However, given the enormity of the changes we've made - the redline versions are virtually impossible to read ... but, if you want to see them - just let me know and I'll send them to you.

(Profuse) Thanks again -
Belinda
